APOSTORE CUBE⁺

OPTIONS FOR THE FUTURE WITH MODULAR AUTOMATION

Keep all options for the future open

The absolutely new modular concept of the Apostore CUBE⁺ is aimed especially at small-sized, medium-sized and branch pharmacies. Prepare your pharmacy for the future with automation. Benefit from the modular design, the high adjustability, the security for the future and the unbeatable price-performance ratio of the new-developed Apostore CUBE⁺.

Adjustable

The Apostore CUBE⁺ individually adapts to your needs. Start off with the base module and safely and reliably expand the capacity of your machine even later in terms of length and height, according to space and business developments, with upgrade modules. Do you need several output chutes into your sales area? No problem! With the CUBE⁺, you can freely place the outlets, exactly as you need it. Installation and expansion are done quickly and easily. Without any rebuilding hassle.

Secure

The CUBE⁺ always fits. Just take out some drawers and replace them with the CUBE⁺. With its modular design, it fits always and everywhere – due to its low weight, even on the first floor or in the basement. Do you want to remodel your premises or even move later on? Again, the CUBE⁺ is your ideal partner. It integrates optimally into the new environment, since it can be easily dismantled and then set up again at a new location. On request, it is available with additional capacity through the versatile expansion modules. The Apostore CUBE⁺ is delivered with innovative Apostore technology – in proven quality of the manufacturer that once more was awarded the seal of the TOP 100 most innovative companies in Germany.

Affordable

The Apostore CUBE⁺ is a good investment. Owing to its modular design where many elements can be prefabricated, cost advantages can be passed on from which you will benefit. You decide with how many storage modules you want to start and thereby determine the sum of your investment. You will be able to buy the Apostore CUBE⁺ with its excellent performance at an exceptionally favourable price.

Intake module

The intake module can be placed anywhere between the start module and the end module of the machine.

Roller intake

The tried and tested Apostore roller intake for fast and secure loading.

Cost benefits

All storage modules are prefabricated and are available for you on call.

EXPANSION MODULES

Height modules

Start module with access door

Intake module with monitor

Storage module with output chute

BM = Base module | SM = storage module | The storage capacity of your CUBE⁺ depends on the stock structure of your pharmacy. All figures are based on experience.

Great shelf depth for more capacity
Especially lightweight shelves with enormous depth mean low machine weight and high capacity in a compact size.

IDEAL FOR SMALL SIZED, MEDIUM SIZED AND BRANCH PHARMACIES

- Start off small and then gradually expand capacity, just as needed
- Extreme adjustability – Due to its modularity, the CUBE⁺ can be easily adapted – in 36 cm length steps and in 3 heights
- Simple, fast assembly and disassembly without the rebuilding hassle
- Low weight for free choice of location – on the ground floor, first floor or in the basement
- Excellent price-performance ratio and maximum flexibility
- Robust technology from Apostore
- Greenline technology for longevity and energy efficiency
- VidCap photo intake control for error-free loading
- ApoClean for automated self-cleaning
- 15 year warranty on the supply of spare parts
